

Invitation to the 2nd IBUS course in Israel

IBUS – Update in Breast Imaging, Interventions & Management

A practical course with ultrasound hands-on workshops

הקורס יערך ב- 21-23 ינואר 2018

- The “Update in Breast Imaging, Interventions & Management” Course brings together an international and a local faculty of breast disease experts.
- Presentations will highlight recent developments of clinical value, and define the current role of breast imaging modalities.
- The practical workshops will focus on ultrasound scanning techniques, and image-guided interventional procedures.

This course is recommended by the European School of Oncology

Under the auspices of the:

- Israeli Senologic Society -
- Breast Surgery Group of the Israel Surgical Association -
- Israel Surgical Association -
