Scientific Program

7 - 9 February, 2018 | Elma Hotel & Arts Complex | Zichron Ya'akov
9-7 בפברואר, 2018 | אלמה מלון ומרכז אומניות | זכרון יعاد
Wednesday, February 7, 2018

18:30 - 22:30 Dinner Session - The Cube Club
Chairs: Y. Skornick, E. Klein, E. Mavor

D. Coit - The Lymph Node

E. Rutgers - Does Axillary Clearance Become an Obsolete in Breast Cancer Management?

L. Ferri - Multimodal Therapy for Esophago-gastric Adenocarcinoma
Thursday, February 8, 2018

08:00 - 09:00  Registration, Morning Reception

09:00 - 09:20  Greetings and Welcome
   Ceremony - Hall I
   H. Gutman, Y. Kluger, M. Ziv

09:20 - 11:00  Opening Session 1 - Hall I
   Chairs - J. Klausner, S. Avital, G. Sebbag

09:20 - 09:50  L. Ferri - The Influence of Post-operative Complications on Oncological Outcomes

09:50 - 10:30  H. Haick - Cooperation between Volatile Biomarkers and Nanotechnology for Non-Invasive Monitoring of Health

10:30 - 11:00  K. McMasters - Melanoma and Breast Micromets - Similarities and Differences
   Travel Supported by

11:00 - 11:30  Coffee Break and Exhibition Visit

11:30 - 14:00  Session 2 - Hall I
   Chairs: M. Gutman, P. Reissman

11:30 - 12:00  R. Pollock - A Possible First Biomarker for Dedifferentiated Liposarcoma of Retroperitoneum

12:00 - 12:30  J. Schachter - Immunotherapy in the Treatment of Melanoma - Sponsored by

12:30 - 13:00  D. Coit - Gastric Cancer Extent of Surgery

13:00 - 13:30  Update in the Multidisciplinary Approach to Intestinal & Pancreatic Neuroendocrine Tumors - Symposium
   Sponsored by

Intestinal Neuroendocrine Tumors - S. Glasberg
Pancreatic Neuroendocrine Tumors - E. Sadot
13:30 - 14:30  Lunch Break

14:30 - 16:30  Session 3 - Hall I
   Chairs: J. Zidan, T. Allweis, M. Koretz

14:30 - 15:00  Optimizing Treatment in HER2+ Early Breast Cancer - A Multidisciplinary Approach -
   Symposium Sponsored by Roche

14:30 - 14:50  S. Paluch-Shimon - Medical

14:50 - 15:00  M. Carmon - Surgical

15:00 - 16:30  Parallel Session - Hall I
   Session 3 Continued

15:00 - 15:30  E. Rutgers - De-escalation of Surgery in Breast Cancer after Neo Adjuvant

15:30 - 16:00  Debate: Completion Lymph Node Dissection for Micrometastasis in Melanoma
   Chairs: E. Shiloni, R. Lavy
   For - M. Gutman
   Against - K. McMasters
   Travel Supported by S. Schneebaum

16:00 - 16:15  M.A. Kiladze - Optimal Management Strategy for Favourable Outcomes at Whipples Operation

16:15 - 16:30  C. Gatnadze - Clinical Analysis of Surgical Management of the Recurrent Gynecological Tumors: Lessons Learned
15:00 - 16:20  Parallel Session - Hall II

15:00 - 16:20  IPMN
   Chairs: E. Kakiashvili, Y. Solomonov, D. Kopelman

15:00 - 15:20  A. Dancour - Endoscopic Ultrasound for Evaluation and Diagnosis of IPMN

15:20 - 15:40  N. Goldberg - CT and MRI Imaging for IPMN

15:40 - 16:00  N. Lubetzki - Surgical Approach to IPMN

16:00 - 16:20  B. Bar-Zakai - Case Presentations

16:30 - 17:00  Coffee Break and Exhibition Visit

17:00 - 19:30  Session 4 - Free Paper Presentations (5 minute presentations) - Hall I
   Chairs: H. Paran, D. Aronovich, O. Zmora

Post Operative Complication after Lumpectomy with Intra Operative Radiation Therapy
H. Kadar Sfarad

Intra-Operative Radiation for Breast Cancer-Short Term Results
I. Melnik

Breast Tissue Dynamics in BRCA1/2 Mutation Carriers
O. Arieli

The Impact of Immediate Breast Reconstruction on the Initiation of Adjuvant Chemotherapy
B. Helou
The 21 Gene Assay (Oncotype Dx) as a Decision Aid in Patients with Breast Cancer prior to Surgery
A. Wachtel

Anxiety in Breast Cancer Patients prior to Neoadjuvant Therapy is Higher Compared to those Referred Directly to Surgery
S. Kreitler

Impact of Delaying Initiation of Adjuvant Chemotherapy and Trastuzumab in Patients with Early Stage HER2 Positive Breast Cancer
S. Anani

Long Term Follow up of Patients with Pathological Complete Response following Neoadjuvant Chemoradiation for Esophageal Cancer
Y. Feferman

Surgery for Stage IV Visceral Malignant Melanoma
O. Friedman-Eldar

Failure to Identify Sentinel Lymph Nodes for Malignant Melanoma – Outcome after Over 10 Years Median Follow-up
O. Zlotnik

Patterns of Failure in Patients with Head and Neck Melanoma
S. Tzelnick

Video Presentation: Laparoscopic Pancreaticoduodenectomy – A Single Institution Experience
C. Shwaartz

Senescent Cells provide Essential Support to Pancreatic Precancerous Lesion Growth and Progression through Cox2 Activity
J. Rachmuth

Preliminary Results in Developing a Geriatric Prognostic Assessment Tool for Elderly Patients with Colon and Rectal Cancer
L. Cooper

Unique Phenotype of Colorectal Cancer in BRCA1/2 Mutation Carriers
A. Grinshpun
Initial Experience with Neoadjuvant FOLFIRINOX for Locally Advanced and Borderline Resectable Pancreatic Cancer: An Intention to Treat Analysis

N. Lubezky

No Response to Neo-adjuvant Radiotherapy (TRS 3*) is Associated with Increased Cancer Recurrence, Particularly Distant, in Patients undergoing Neoadjuvant Radiotherapy for Rectal Cancer

L. Lahav

Detection of Long Intervening Non-coding RNA - CCAT1 Colorectal Cancer Biomarker in Living Cells and Human Biopsies by Forced Intercalation - Peptide Nucleic Acids (FIT-PNAs)

R. Shapira

Management of Recurrent Adenocarcinoma of the Rectum: A Single Center Experience

A. Ben-Yaacov

Omental Exosomes Promote Gastric Cancer Aggressiveness: A Potential Novel Mechanism of Gastric Cancer Peritoneal Metastasis

G. Lahat

Initial Experience with Laparoscopic D2 Gastrectomy for Gastric Cancer

B. Raguan Schneidman

18:30 - 19:30 Cheese & Wine Event Sponsored by Novartis

Meet the Expert on Targeted Therapy for Melanoma - Hall II Chair: G. Bar Sela

18:30 - 18:50 H. Gogas - Overview of Current and Future Clinical Studies regarding Combination Targeted Therapy for Melanoma

18:50 - 19:30 Case Presentations and Discussion

19:30 Get Together Cocktail Sponsored by Medoc Rand
Friday, February 9, 2018

08:00 - 09:00  Registration, Morning Reception

08:30 - 13:30  Parallel Sessions
   Hall I

08:30 - 09:30  Pre-morning Session - Free Paper Presentations (5 minute presentations)
   Chairs: G. Lahat, B. Sagi, N. Menasherov

Urologic Involvement and Complications in Cytoreductive Surgery with Hyperthermic Intraperitoneal Chemotherapy
A. Dori

Preoperative Neutrophil-lymphocyte Ratio and Platelet-lymphocyte Ratio Predict overall Survival in Colorectal Cancer Patients that are Candidates for CRS+HIPEC
Y. Zager

Repeated Cytoreductive Surgery with Hyperthermic Intraperitoneal Chemotherapy—our Experience
S. Goren

Cytoreductive Surgery and Hyperthermic Intra Peritoneal Chemotherapy (HIPEC): Lessons Learned from 337 Consecutive Patients
A. Ben-Yaacov

Implementation of a Hyperthermic Intraperitoneal Chemotherapy Program – How to Minimize the Learning Curve
V. Tverskov

Cytoreductive Surgery and HIPEC in the Elderly
A. Bilik

Acute Post-operative Hypoalbuminemia Predicts Prognosis following CRS-HIPEC
M. Cordoba

MRI Diagnosis and Follow-up of Chest Wall and Breast Desmoid Tumors in Patients with a History of Oncologic Breast Surgery and Silicone Implants: A Pictorial Report
A. Grubstein
Free Paper Presentations - Hall I
Doxorubicin Eluting Intra-arterial Therapy for Extra Abdominal Desmoid Fibromatosis: A Promising Approach for a Perplexing Disease
E. Elnekave

Comparison of Classic Anastomosis Vs Roux en Y Anastomosis in Pancreaticoduodenectomy
O. Yzhaky Shapira

Dual Loop (Roux en Y) Reconstruction with Isolated Gastric Limb Reduce the Rates of Delayed Gastric Emptying in Patients undergoing Pancreatico-duodenectomy
O. Ben-Ishay

09:30 - 11:00 Morning Session 5 - Hall I
Chairs: A. Eid, R. Haddad, H. Kashtan

09:30 - 09:40 I. Avital - Building-up a Cancer Center in Soroka

09:40 - 10:00 N. Peled - Precision Medicine in Lung Cancer

Parallel Sessions - Hall I
10:00 - 10:40 Rami Czerniak Memorial Lecture: R. Adam - Multidisciplinary Management of Liver Colorectal Metastases

10:40 - 11:00 A. Zer - New Horizons for GIST

11:00 - 11:30 Coffee Break and Exhibition Visit

11:30 - 12:50 Session 6 - Further Debates
Chairs: D. Benchimol, B. Bar-Zakai, A. Pikarski

11:30 - 12:00 Debate: Resection or Ablation of Liver Metastasis
Resection - M. Ben Haim (10’)
Ablation - L. Appelbaum (10’)
Mediator - R. Adam (5’) & Q&A (5’)

12:00 - 12:20 M. Deraco - Peritoneal Mesothelioma
Parallel Sessions - Hall I
12:20 - 12:50  Debate: Role of Cytoreductive (HIPEC) in GI Malignancies
   For - A. Nissan (10’)
   Against - D. Coit (10’)
   Mediator - D. Benchimol (5’) & Q&A (5’)
12:50 - 13:30  Closing Remarks, Professional Meeting, Treasurer Report, Elections for Chairman

14:00 - 14:30  Lunch

The Israeli Society of Breast Diseases
Annual Meeting

08:30 - 13:15  Parallel Sessions - Hall II

08:30 - 10:20  Neoadjuvant Treatment

08:30 - 08:40  S. Schneebaum, M. Ziv - Introductions

08:40 - 10:35  Chairs: M. Inbar, T. Peretz, M. Koretz

08:40 - 09:00  Tailoring Individual Treatment
   T. Allweis - Oncotype Dx

09:00 - 09:20  E. Evron - Hormonal Neoadjuvant

09:20 - 09:35  G. Fried - Her 2 Neoadjuvant

09:35 - 09:50  R. Yerushalmi - Triple Negative Neoadjuvant
09:50 - 10:15  Marking the Sentinel Nodes:  
             Coal - T. Allweis  
             Clip - M. Carmon

10:15 - 10:35  S. Gelper - Radiotherapy  
               Treatment of Complete  
               Response in the Axilla

10:35 - 12:00  Chairs: T. Menes, D. Hershko,  
               O. Golan

10:35 - 11:00  K. McMasters - Treatment of  
               Liver Metastases from Breast  
               Cancer  
               Travel Supported by

11:00 - 11:30  Coffee Break and Exhibition Visit

11:30 - 12:00  M. Sclair & T. Sela - Radiological  
               Assessment of Response  
               MRI Always Yes/No  
               Remove all Calcifications Yes/No

12:00 - 13:15  Chairs: L. Ribo, R. Ben Yoseph

12:00 - 12:30  M. Toker - Advances in  
               Treatment of ER Positive  
               Metastatic Breast Cancer -  
               Sponsored by Pfizer

12:30 - 12:50  A. Yosepovich - Histological  
               Assessment of Response to  
               Neoadjuvant

12:50 - 13:15  E. Bar Meir & A. Tessone - Is  
               Radiation a Contra Indication to  
               Immediate Reconstruction?

14:00 - 14:30  Lunch
